EDUCATION

Vellore Institute of Technology, Chennai *2024 – 2028*
B.Tech CSE (Cyber Security) | CGPA: 8.55

WORK EXPERIENCE

Software Development Intern — ADRDE, DRDO, Agra, UP *May 2026 – Jun 2026*

- Built the *ADRDE Agra Dashboard Portal* — a working full-stack prototype with modular architecture, secure JWT-based authentication, and role-based access control (RBAC).
- Developed modules for user management, meetings, notifications, and reports.
- Built with React, Vite, Node.js, Express.js, MongoDB, Tailwind CSS, and Socket.io.
- Deployed frontend on Vercel and backend on Render for review and evaluation; documented the full architecture, modules, testing, and future roadmap.
- The prototype demonstrates what a proper internal web system could look like — groundwork for something that could be scaled into a real LAN-based deployment.
- **Reported to Mr. Vipin Kumar Verma, Scientist 'F', ADRDE-DRDO.**

PROJECTS

Fastify Auth & Media Engine

- Built a low-overhead Fastify backend with JWT authentication, encapsulated plugin architecture, and schema-driven environment validation.
- Implemented multi-part media upload handling, static file serving, and secure password hashing with bcrypt.
- **Technology:** Node.js, Fastify, MongoDB, JWT, bcrypt.

GitHub Repository

LMS Backend Engine

- Developed a production-style REST API for a Learning Management System with JWT authentication and role-based access control for Students, Instructors, and Admins.
- Integrated Razorpay payment gateway with HMAC-SHA256 signature verification and automated enrollment on verified payment.
- **Technology:** MongoDB, Express.js, Node.js (MEN Stack), Razorpay, Cloudinary.

GitHub Repository

VibeCode Editor — AI-Powered Cloud IDE

- Built an AI-integrated in-browser IDE using WebContainers for client-side Node.js execution and Monaco Editor for a VS Code-level editing experience.
- Integrated OAuth authentication, multi-model local AI code completion via Ollama, and six ready-to-use project starters.
- **Technology:** Next.js, React, TypeScript, Tailwind CSS, MongoDB, Prisma.

GitHub Repository

TECHNICAL SKILLS

Programming: C, C++, Python, Java
Cybersecurity: Kali Linux, Bash, Log Analysis, Ethical Hacking, Wireshark, Burp Suite, DVWA, Metasploit Basics
Web: HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, MERN Stack, Next.js
Core CS: DSA, OOPs, Operating Systems, DBMS, Computer Networks
Tools: Git, GitHub, VirtualBox, VS Code

ACHIEVEMENTS

- LeetCode: Solved 190+ problems
- HackerRank: 4★ in Python

CERTIFICATIONS

- Complete Web Development – Udemy (Hitesh Choudhary)
- Google Cybersecurity – Coursera
- Microsoft Azure Fundamentals (AZ-900)
- Deloitte – Cybersecurity Simulation
- HTML & CSS – Udemy
- Ethical Hacking – TuteDude

EXTRA-CURRICULAR

- Former member, Magadh-Mithila Cultural Club (Bihar & Jharkhand community club), VIT.
- Former member, Prodinno Club (Product Management club), VIT.
- Maintains a consistent fitness routine — strength training and long-distance running.
